RE: CCSO DR# 19-00430

Suspect: Douglas Packer  
Victim: D K

DOB: 05- 1955  
DOB:

On 01-04-19, at approximately 1600 hrs, E D and D K who are inmates at the Cochise County Jail in Bisbee, AZ reported D was sexually assaulted by Chaplin Doug Packer.

Detective Davidson and I responded to the Bisbee Jail to investigate these claims. We were briefed about this incident and told Chaplin Packer apparently forced to give him oral sex while was forced to watch.

We spoke to E first who told us she is cellmates with D. About two (2) weeks ago D told her that Chaplin Packer tried to kiss her. E said she has heard several stories about the Chaplin having female inmates perform sexual acts on him for food. She always thought these stories were made up and she didn't believe D story. E said today the Chaplin pulled D out of the pod around 1300 hrs, and she was gone for a while. E was then pulled out of the pod and taken to the Chaplin's office. The Chaplin wanted to know what E knew. She told him she knew everything. The Chaplin then wanted D and her to kiss but they refused. She said the Chaplin then forced D to her knees and made her give him a "blow job". She said he pulled his pants down to his knees. He was wearing blue boxer brief underwear. She saw his penis which was erect. She said his pubic hair was trimmed.

She said when the Chaplin ejaculated it got on D shirt and the floor. The Chaplin told her to clean the semen on the floor in which she did with a tissue. She then started to clean D who had semen on her shirt and arm. She kept the tissue she cleaned D arm with for evidence. The Chaplin told them no one would believe them if they said anything because he has been around for 10 years. After this, the Chaplin took them back to their pod.

We collected the tissue from E

We spoke to D next. D confirmed she is cellmates with E. She told us, every time she has seen the Chaplin, he has become more touchy with her. He started by scooting his chair closer to her then he started touching her leg. He would make comments to her that he liked her. About three (3) weeks ago he gave her a hug and kissed her on the mouth. She described it as a peck. He told her how inmates will thank him with sex when they get out of jail. She told E about what the Chaplin did, but E didn't believe her. She said two (2) days ago he called her into his office and she sat in the chair. He straddled her and held her arms down. He then tried to kiss her, and she pulled her head away. He then took his right hand and put it under her shirt to feel her left breast (skin to skin). She pushed his hand away and he then put his hand down her pants. He started to rub her vagina but didn't penetrate it. She said he stopped when one of the doors in the hall opened. It should be noted when a hall door opens it makes a loud popping noise. After he got off of her, he acted as nothing had happened. He talked to her for a little while and then took her back to the pod.

D said today at about 1335 hrs, she was pulled out of the pod by the Chaplin. She said he pulls her out without her requesting to see him. She described he did the same thing to her that he did two (2) days ago. She said the breast touching and rubbing her vagina were all the same. He asked her what she told E and she said everything. He called for E to be brought into his office. When she arrived he asked E what she knew. She told him everything. He wanted them to kiss but they refused. D said he then forced her on her knees and he had his penis out. She described it as being soft. He told her to suck his "dick". She said he forced her head towards his penis and in her mouth. She said she told him, "No" several times. She said when he ejaculated it was on her lips, shirt and right arm. She said she kind of blacked out when this happened and only remembers E cleaning her. After this, the Chaplin started to clean his penis with a tissue. She said he put the tissue in his trash can in his office. She described the Chaplin as wearing blue underwear but she didn't know what kind they were. The Chaplin told her no one would believe her if she said anything because he has been in the jail for 10 years. The Chaplin then took them back to their pod.

It should be noted the area on D shirt where she said the semen was had stain which could possibly be from semen. We collected D clothing.

We went into the Chaplin's Office and saw several tissues on top of the trash can. These tissues were collected for evidence.

A search warrant and Order of Physical Characteristics were drafted to search Packer's house for the clothing he was wearing during this incident and to obtain his DNA. The search warrant was presented to Judge Poppe who reviewed and signed the search warrant and the Order of Physical Characteristics.

On 01-05-19, at approximately 0019 hrs, Deputy Gilbert, Detective Davidson and I went to Chaplin Packer's house to serve the search warrant. We knocked on the door several times and no one answered. I called Packer who answered and said he was home. I asked him to come to the front door to talk to me in which he did.

I explained there were allegations made against him and we had a search warrant for his house to obtain the clothing he was wearing at work the day before. I also explained the Order of Physical Characteristics and that we were going to go to my office for the buccal swab. Packer complied and let us in his house. He gathered all the clothing he was

wearing to include his underwear. It should be noted the underwear he provided were blue boxer briefs which were consistent with what E and D told us. An inventory list was given to Packer.

Deputy Gilbert transported Packer to the Sierra Vista Detective's Office. At approximately 0104 hrs, Packer was read his Miranda Warnings. He said he understood his rights and didn't want to talk without a lawyer. We obtained a buccal swab from Packer.

Packer was placed under arrest and taken to the Sierra Vista Jail.
